Russian Laminar Flow Airfoils 3rd Part: Measurements on the Profile No. 2315 BIS with Ava-Nose Flap

The tests on the Russian airfoil 2315 Bis were continued. This airfoil shows, according to Moscow tests, good laminar flow characteristics. Several tests were prepared in the large wind tunnel at Gottingen; partial results were obtained.

Document ID 20050019424

Acquisition Source
Langley Research Center

Document Type
Other - NACA Technical Memorandum

Authors
Riegels, F.
(Zentrale fuer Wissenschaftliches Berichtswesen Berlin, Germany)

Date Acquired August 22, 2013

Publication Date
September 1, 1947

Publication Information
Publication: Untersuchungen und Mitteilungen

Subject Category
Aerodynamics

Report/Patent Number
NACA-TM-1127 Report Number: NACA-TM-1127

Distribution Limits
Public

Copyright Work of the US Gov. Public Use Permitted.
